

GEN5

3W - COMBO VENDOR

The Gen5 3W Combo Vendor is a versatile and cost-effective vending machine designed for snacks and beverages. The 3W model is a compact machine with a smaller footprint, featuring a modern touchscreen interface, multiple payment options, and customizable trays. It offers a flexible solution for various vending needs.

Capacity

Up to 36 selections with total capacity varying with tray configuration.

Dual Temperature Zones

Two zones separated by an insulated barrier let you choose temperature settings for one zone and give more options for refrigerated foods, snacks and drinks.

Easy Installation

Comes equipped with castors which offers effortless mobility, making relocation quick and hassle-free.
