

GEN5

COMBO VENDOR

The Gen5 Combo Vendor is a versatile and cost-effective vending machine designed for snacks and beverages. Featuring a modern touchscreen interface, multiple payment options, and customizable trays, it offers a flexible solution for various vending needs.

Highest Capacity

300 - 500 items per machine with enhanced LED lighting for optimal product showcasing.

Dual Temperature Zones

Two zones separated by an insulated barrier let you choose temperature settings for one zone and give more options for refrigerated foods, snacks and drinks.

Easy Installation

Comes equipped with castors which offers effortless mobility, making relocation quick and hassle-free.
