

GEN5

ELEVATOR - COMBO VENDOR

The GEN5 Elevator is a **cost-efficient, high-capacity** vending solution designed to handle an endless variety of products with ease. Featuring **dual temperature zones and a safe elevator delivery system**, this machine ensures products are dispensed securely with no drops and no damage—making it ideal for both traditional and non-traditional vending.

Elevator Delivery System

The Advanced elevator delivery system ensures every product is dispensed safely with zero drops and zero damage.

Dual Temperature Zones

Two zones separated by an insulated barrier let you choose temperature settings for one zone and give more options for refrigerated foods, snacks and drinks.

Highest Capacity

With a flexible configuration, it can hold 300–600 items.
